

DINO'S DYNAMOS

Craft

Autumn Leaves Hedgehog

You will need:

- Autumn leaves
- Brown cardboard
- Glue
- Pens or paint

Step 1 Collect a selection of Autumn leaves and leave them on a window sill until they are completely dry.

Step 2 Draw a body shape on the cardboard and cut it out. You can use this template shape as an example.

Step 3 Glue the leaves on to the body to represent the spikes.

Step 4 Draw eyes, a nose, a mouth and whiskers on to your hedgehog. And don't forget to give it a name!

Hedgehogs

FACT! A hedgehog can have up to 6000 spines! These help it protect itself against predators. It can roll into a ball to protect its soft tummy.

FACT! Don't feed hedgehogs milk or bread as it can give them an upset tummy. If you want to feed them, give them small amounts of cat or dog food.

FACT! There are 17 different species of hedgehogs. This one is a long-eared hedgehog from Asia.
