

DINO'S DYNAMOS Craft

Salt Dough Fish...

You will need:
200ml water
300g plain flour
300g salt
1 tablespoon vegetable oil
Rolling pin
Poster paints
PVA glue

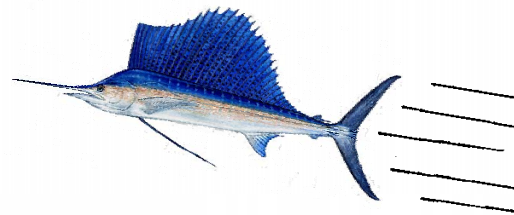

1. In a large bowl mix the salt and flour together.
2. Gradually add the water and vegetable oil.
3. Knead on a flat surface until a doughy consistence is reached, add a few more drops of water if necessary.
4. Now that our dough is ready it's time to sculpt your fish. Use a rolling pin to roll the dough flat then cut out a fish shape.

DINO'S DYNAMOS Craft

Salt Dough Fish...

5. Accessorise your fish with a tail, fins, gills, scales and an eye.
6. To harden your fish ask an adult to heat the oven to 180°C and bake your fish for 20 minutes.
7. Now it's time to decorate your fish - paint it with as many bright colours as you like.
8. Once the paint has dried make your fish shine by varnishing it with a thin layer of PVA glue - fishytastic!

FACT! The world's fastest fish is the sailfish - it can reach speeds of over 100 kilometres per hour!
